

## REPOSITORY INFORMATION

Information regarding horses entered in this sale may be placed in a Repository. Participation by Consignors is voluntary. If information is submitted to the Repository, the Consignor will determine the nature and extent of such information and be responsible for its accuracy.

Buyers are strongly urged to make personal examinations of horses because the Repository information is intended to supplement that process and not be a substitute. CTHS will not review the Repository information and makes no warranty or assurance of any kind concerning its completeness or accuracy.

The Repository will be open to veterinarians of prospective buyers commencing on Monday, August 28<sup>th</sup>, 12:00 noon to 5:00 pm, on Tuesday, August 29<sup>th</sup> 8:00 am – to 5:00 pm and on Wednesday, August 30<sup>th</sup> 8:00 am through the close of the sale. **Consignors submitting information to the Repository must do so no later than noon on Monday, August 28<sup>th</sup>.**

Information/material that will be accepted in the Repository includes, but is not limited to, the following:

1. **Radiographs taken no earlier than 22 days (August 9<sup>th</sup>, 2023) of the sale date** with the hip number of the horse, Dam & last 2 digits of foaling year and the date of the x-rays. **All Digital radiographs must be submitted in DICOM format and all images for a HIP must be included in a single DICOM study. It is mandatory that consignors submit a minimum of 36 views, as described in the attached schedule. The use of the repository is voluntary, but if used, all of the minimum required views must be on file.**
2. Veterinary statements describing any joint surgery known by the seller or consignor.
3. Veterinary statements describing any impairment of vision or injury to the eye.
4. Veterinary statements describing abdominal surgery except surgery to repair a ruptured bladder in a foal.
5. Veterinary statements describing endoscopic examinations.
6. Veterinary statements describing locomotor ataxia (wobbler syndrome)

### **Link for Online Repository submissions:**

[2023 CTHS Yearlings sale submission link coming soon](#)

- If consignors fail to precisely describe a condition known to them, or a warranted condition is not described in the repository, the buyer may dispute and possibly rescind the sale.
- All repository information will be maintained in the repository and shall not be removed from that location. Any Veterinarian desiring to view the repository information shall sign a form provided by the CTHS identifying him or herself and the hip number of the horse in question. Copies of repository information may not be made. Radiographic viewers in the repository area are only to be used for reviewing radiographs maintained in the repository. All repository items must be removed within 24 hours of the sale and can only be released to the authorized agent.

- In all respects, the sale will be governed by the Conditions of Sale and the Acknowledgement of Purchase. The repository is intended to be a service available to buyers and consignors to promote openness and confidence in the sales process.

### **MINIMUM REQUIRED FILMS FOR SALES REPOSITORY**

#### **EACH CARPUS (left & right):**

Lateral/Medial Oblique (30° - 40°) (Dorsolateral 35°, to palmar medial oblique)  
 Medial/Lateral Oblique (20° - 30°) (Dorsolateral 25°, to palmar lateral oblique)  
 Flexed Lateral (Flexed lateral to medial)

#### **EACH FETLOCK (left & right):**

##### **FRONT:**

AP elevated 15° (Dorsal, 15° elevated, to palmar)  
 Medial Oblique (Dorsomedial 30°, to palmar lateral oblique)  
 Lateral Oblique (Dorsolateral 30°, to palmar medial oblique)  
 Lateral (Flexed lateral to medial)  
 Standing Lateral (Standing lateral to medial)

##### **HIND:**

AP elevated 15° (Dorsal, 15° elevated, to palmar)  
 Medial Oblique (Dorsomedial 30°, 15° to palmar lateral oblique)  
 Lateral Oblique (Dorsolateral 30°, 15° to palmar medial oblique)  
 Standing Lateral to Medial

Obliques should be elevated slightly to separate the sesamoid and PI interface.

#### **EACH HOCK (left & right):**

Medial/Lateral Oblique (or 15° PALMO) (Dorsomedial 65° to plantar lateral oblique) – or- (Plantaro-lateral 25° to dorsomedial oblique)  
 Off Center AP (Slightly Lateral) (Dorsolateral 10° to plantar medial)  
 Lateral to Medial

#### **EACH STIFLE (left & right):**

Lateral to Medial  
 20° PALMO (Posterior lateral 20° to anterior medial oblique **must include medial femoral condyle in it's entirety**).  
 PA (Posterior/Anterior)

#### **LABELING:**

Standard markers for radiographic views are always lateral unless there is no lateral aspect, then they are placed anteriorly. For oblique views, the marker is located posteriorly on a (DLPMO) lateral oblique and anteriorly on a (DMPLO) medial oblique. For an AP view, the marker is located laterally and for a lateral view, the marker is located anteriorly.
