CONSIGNOR & AGENT CODE OF CONDUCT:

Horse's Condition: When consigning a horse to any CTHS sale you have signed a contract that includes an agreement on your horse's condition. The CTHS would like to add to these by stipulating that the horse's health and appearance are just as important. It is imperative that the health and physical condition of the horse upon its arrival for the sale is beyond reproach. In the event the CTHS sale veterinarian deems any horses not to be fit for the sale the CTHS will at its discretion request the horse(s) be removed from the sales site immediately.

Selling Procedures: There is a standard set in the industry that the CTHS expects to be maintained as per below:

- a) All horses selling in our sales must be presented and sold with a new leather halter.
- b) The professionalism of each individual Consignment does affect buyer's perspectives on their horses being offered for sale. It is with this that we ask that your areas are kept clean and that the horses are presented to potential buyers as professionally as possible. This includes such things as displays, attire (shirts, appropriate footwear and if wearing shorts only walking shorts permitted), experienced handlers, etc.
- c) Consignors must make every effort possible, when showing horses, to make the sales grounds as safe as possible for prospective buyers.
- d) Consignors are not to remove their sale signage & displays until **after** the conclusion of the sale.

Post Sale: There is an unwritten responsibility of the sellers to care for the horses sold in their consignment for at least 24 hours after the sale. This includes making sure each horse is left with water and hay.

Many thanks in advance to all of our consignors for their cooperation. If you have any questions please do not hesitate to contact our office at any time. We look forward to all participants having a successful sale.
